*Nehru Children's Museum*

**We offer our deepest regard on your 100th Birth Anniversary.**

Your dream of building a new world for the young minds was your prime motive. Remained engrossed and worked relentlessly to achieve your goal until the last day of your life.

The beginning was made in 1945 when National Cultural Association was formed with few dedicated members with the prime objective of imparting education to children through the medium of audio-visual aids.

**Nehru Children's Museum** came into existence on 14th November 1972. Your strong convictions and dedication are the main driving force today to the present team of members in carrying on with all activities to achieve your cherished goal for the new generation.

Your honesty and ideals will be our path forever.
